1 Foreword

YD/T 4683-2024 was issued by Ministry of Industry and Information Technology on 29 March 2024 and has been in force since 1 July 2024.

The YD/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 15 pages in English translation.

2 Scope Preview

This standard specifies the information security management and protection requirements for cloud service customers at various stages of the public cloud service life cycle. This standard is applicable to guiding cloud service customers to use the cloud safely, and to build and improve the information security management mechanism of the cloud system based on their own security management measures.

YD/T 4683-2024 falls under ICS 33.03, in the field of telecommunications.

This catalogue holds 3,420 other YD/T standards in that field.

In this catalogue, YD/T standards carry edition years from 1982 to 2026.
