1 Foreword

YD/T 4707-2024 was issued by Ministry of Industry and Information Technology on 29 March 2024 and has been in force since 1 July 2024.

The YD/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 15 pages in English translation.

2 Scope Preview

This standard specifies the access requirements for the security simulation platform for testing and verifying the network security technology of intelligent vehicles, including functional requirements, security requirements, performance requirements, etc. This standard applies to the development, use and maintenance of the access system of the network security simulation platform of intelligent vehicles.

YD/T 4707-2024 falls under ICS 35.240.99, in the field of information technology.

This catalogue holds 725 other YD/T standards in that field.

In this catalogue, YD/T standards carry edition years from 1982 to 2026.

3 About this standard

Sector: Telecommunication Industry Standard (Recommended)

Issued by: Ministry of Industry and Information Technology

English translation: about 15 pages (approximate)

4 Related standards

Standards on related subjects:

GB/T 36073-2018 - Data management capability maturity assessment mode

YD/T 4392.3-2026 - General requirements for artificial intelligence development platform - Part 3: Performance requirements

YD/T 4706-2024 - Technical requirements for operation control of cyberspace security simulation

YD/T 4701-2024 - Requirements for the operation control interface of cyberspace security simulation

5 Classification and status

International classification (ICS): 35.240.99

Chinese Standard Classification (CCS): L 67

Prefix YD/T: recommended standard.
