1 Foreword

YD/T 4716-2024 was issued by Ministry of Industry and Information Technology on 29 March 2024 and has been in force since 1 July 2024.

The YD/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 15 pages in English translation.

2 Scope Preview

This standard specifies the technical requirements, test inspection and evaluation methods for network traffic analysis and detection response products (including products with network traffic analysis and detection response functions). This standard is applicable to guiding the developers of network traffic analysis and detection response products (including products with network traffic analysis and detection response functions) to conduct product testing, the selection or acceptance testing of product users, and is also applicable to third-party evaluators to evaluate product maturity and capabilities.

YD/T 4716-2024 falls under ICS 35.03, in the field of information technology.

This catalogue holds 725 other YD/T standards in that field.

In this catalogue, YD/T standards carry edition years from 1982 to 2026.
