1 Foreword

YD/T 4727-2024 was issued by Ministry of Industry and Information Technology on 5 July 2024 and has been in force since 1 October 2024.

The YD/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 15 pages in English translation.

2 Scope Preview

This standard specifies the general technical requirements for user premises equipment (referred to as 5G CPE) with 5G wireless access as the upstream communication interface connection mode, mainly including the interface requirements, functional requirements, safety requirements, performance indicators, and power supply, environmental adaptability, electrical safety, lightning protection, electromagnetic compatibility, etc. of 5G CPE. This standard applies to the R&D, design and production of 5G CPE equipment powered by AC and DC power supplies in public telecommunication networks and private communication network environments.

YD/T 4727-2024 falls under ICS 33.060.99, in the field of telecommunications.

This catalogue holds 3,420 other YD/T standards in that field.

In this catalogue, YD/T standards carry edition years from 1982 to 2026.

3 About this standard

Sector: Telecommunication Industry Standard (Recommended)

Issued by: Ministry of Industry and Information Technology

English translation: about 15 pages (approximate)

4 Related standards

Standards on related subjects:

YD/T 3711-2020 - Technical requirement of IMS based vehicle eCall system based on public telecommunication network

GB/T 32401-2015 - Technical requirements and measurement methods for VHF/UHF frequency

GB/T 12572-2008 - Universal requirements and measurement methods of parameters for radio transmitting equipment

YD/T 4722-2024 - Technical requirements for shared base station equipment for 5G digital cellular mobile communication networks

YD/T 4720-2024 - 5G digital cellular mobile communication network sub-6GHz frequency band base station equipment test method (Phase II)

YD/T 4719-2024 - Technical requirements for base station equipment in the frequency band below 6 GHz for 5G digital cellular mobile communication networks (Phase II)

5 Classification and status

International classification (ICS): 33.060.99

Chinese Standard Classification (CCS): M 36

Prefix YD/T: recommended standard.
