1 Foreword

YD/T 4734-2024 was issued by Ministry of Industry and Information Technology on 5 July 2024 and has been in force since 1 October 2024.

The YD/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 15 pages in English translation.

2 Scope Preview

This standard specifies the overall technical requirements for positioning under the 5G independent networking mode, including technical requirements such as positioning architecture, protocol, positioning business process, positioning technical process, and security. It also specifies reference technical materials such as positioning architecture and protocol for industry users to achieve data within the park. This standard applies to network deployment and equipment development such as base stations, terminals, and core networks that support 5G positioning.

YD/T 4734-2024 falls under ICS 33.060, in the field of telecommunications.

This catalogue holds 3,420 other YD/T standards in that field.

In this catalogue, YD/T standards carry edition years from 1982 to 2026.

3 About this standard

Sector: Telecommunication Industry Standard (Recommended)

Issued by: Ministry of Industry and Information Technology

English translation: about 15 pages (approximate)

4 Related standards

Standards on related subjects:

YD/T 3711-2020 - Technical requirement of IMS based vehicle eCall system based on public telecommunication network

GB/T 32401-2015 - Technical requirements and measurement methods for VHF/UHF frequency

GB/T 12572-2008 - Universal requirements and measurement methods of parameters for radio transmitting equipment

YD/T 4726-2024 - 5G digital cellular mobile communication network TDD repeater test method

YD/T 4725-2024 - 5G digital cellular mobile communication network FDD repeater test method

YD/T 4724-2024 - Technical requirements for FDD repeater stations in 5G digital cellular mobile communication networks

5 Classification and status

International classification (ICS): 33.060

Chinese Standard Classification (CCS): M 36

Prefix YD/T: recommended standard.
