1 Foreword

YD/T 4744-2024 was issued by Ministry of Industry and Information Technology on 5 July 2024 and has been in force since 1 October 2024.

The YD/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 15 pages in English translation.

2 Scope Preview

This standard specifies the overall technical requirements for the access service diversion, migration, and separation (ATSSS) functions of the 5G mobile communication network core network, including the policy control function (PCF), access and mobility management function (AMF), session management function (SMF), user plane function (UPF), unified data management (UDM), network storage function (NRF) and other network elements with respect to 5G network functions and interfaces. This standard applies to the development, design, and testing and verification of PCF, AMF, SMF, UPF, UDM, and NRF equipment that support ATSSS functions.

YD/T 4744-2024 falls under ICS 33.060.99, in the field of telecommunications.

This catalogue holds 3,420 other YD/T standards in that field.

In this catalogue, YD/T standards carry edition years from 1982 to 2026.

3 About this standard

Sector: Telecommunication Industry Standard (Recommended)

Issued by: Ministry of Industry and Information Technology

English translation: about 15 pages (approximate)

4 Related standards

Standards on related subjects:

YD/T 3711-2020 - Technical requirement of IMS based vehicle eCall system based on public telecommunication network

GB/T 32401-2015 - Technical requirements and measurement methods for VHF/UHF frequency

GB/T 12572-2008 - Universal requirements and measurement methods of parameters for radio transmitting equipment

YD/T 4736-2024 - Technical requirements for 5G mobile communication network positioning system terminal equipment (Phase I)

YD/T 4735-2024 - Technical requirements for base station equipment of 5G mobile communication network positioning system (Phase I)

YD/T 4734-2024 - Overall technical requirements for 5G mobile communication network positioning system (Phase I)

5 Classification and status

International classification (ICS): 33.060.99

Chinese Standard Classification (CCS): M 36

Prefix YD/T: recommended standard.
