1 Foreword

YD/T 4821-2024 was issued by Ministry of Industry and Information Technology on 5 July 2024 and has been in force since 1 October 2024.

The YD/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 15 pages in English translation.

2 Scope Preview

This standard specifies the test methods for automated quality measurement (Telemetry) of telecommunications operators' networks, as well as the technical test methods for Telemetry technology in the management plane, control plane, and data plane. This standard applies to the testing and evaluation, equipment development, and management of network equipment and systems that support Telemetry in telecommunications operators' networks, and can also be used as a reference.

YD/T 4821-2024 falls under ICS 35.110, in the field of information technology.

This catalogue holds 725 other YD/T standards in that field.

In this catalogue, YD/T standards carry edition years from 1982 to 2026.

3 About this standard

Sector: Telecommunication Industry Standard (Recommended)

Issued by: Ministry of Industry and Information Technology

English translation: about 15 pages (approximate)

4 Related standards

Standards on related subjects:

CJ/T 188-2018 - Technical requirements of utility meters data transmission

YDC 079-2009 - Technical Specifications and Testing Methods of Wireless LAN for Mobile Terminals

YD/T 4823-2024 - Link Layer Discovery Protocol (LLDP) Technical Requirements

YD/T 4820-2024 - Technical requirements for automated quality measurement (Telemetry) of telecom operator networks

YD/T 4816-2024 - Content delivery network technology requires edge nodes

5 Classification and status

International classification (ICS): 35.110

Chinese Standard Classification (CCS): L 78

Prefix YD/T: recommended standard.
