1 Foreword

YD/T 4826-2024 was issued by Ministry of Industry and Information Technology on 5 July 2024 and has been in force since 1 October 2024.

The YD/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 15 pages in English translation.

2 Scope Preview

This standard specifies the data content, format requirements and storage requirements of the measurement report of the wireless master device provided by the wireless operation and maintenance center (OMC-R) of the 5G digital cellular mobile communication network. This standard applies to the wireless measurement report of the wireless operation and maintenance center of the 5G digital cellular mobile communication network.

YD/T 4826-2024 falls under ICS 33.060, in the field of telecommunications.

This catalogue holds 3,420 other YD/T standards in that field.

In this catalogue, YD/T standards carry edition years from 1982 to 2026.

3 About this standard

Sector: Telecommunication Industry Standard (Recommended)

Issued by: Ministry of Industry and Information Technology

English translation: about 15 pages (approximate)

4 Related standards

Standards on related subjects:

YD/T 3711-2020 - Technical requirement of IMS based vehicle eCall system based on public telecommunication network

GB/T 32401-2015 - Technical requirements and measurement methods for VHF/UHF frequency

GB/T 12572-2008 - Universal requirements and measurement methods of parameters for radio transmitting equipment

YD/T 4834-2024 - Technical requirements for the classification of intelligent levels of information and communication network operation and management Mobile communication network (Phase I)

YD/T 4825-2024 - Technical requirements for the network resource model of the 5G user premises equipment common management northbound interface

YD/T 4824-2024 - Technical requirements for automatic activation of network management interface function for 5G base stations

5 Classification and status

International classification (ICS): 33.060

Chinese Standard Classification (CCS): M 36

Prefix YD/T: recommended standard.
