1 Foreword

YD/T 4852-2024 was issued by Ministry of Industry and Information Technology on 5 July 2024 and has been in force since 1 October 2024.

The YD/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 15 pages in English translation.

2 Scope Preview

This standard specifies the test methods for the management of systems, hardware, software, VLAN, QoS, alarm, multicast, PON interfaces, slices, etc. by the controller southbound interface based on the YANG model of PON equipment in broadband access networks based on software-defined networks (SDN). This standard applies to the test of the controller southbound interface based on the YANG model of PON equipment in PON systems under public telecommunication network environments, and can also be used as a reference for dedicated telecommunication networks.

YD/T 4852-2024 falls under ICS 33.040.50, in the field of telecommunications.

This catalogue holds 3,420 other YD/T standards in that field.

In this catalogue, YD/T standards carry edition years from 1982 to 2026.

3 About this standard

Sector: Telecommunication Industry Standard (Recommended)

Issued by: Ministry of Industry and Information Technology

English translation: about 15 pages (approximate)

4 Related standards

Standards on related subjects:

YD/T 1092-2023 - Telecommunication cables - Foamed polyolefin dielectric, corrugated copper-tube outer conductor, 50 Ohm radio-frequency coaxial cable for wireless communications

YD/T 2165-2010 - Technical specification of modular uninterruptible power systems for telecommunications

YD/T 841-1996 - Underground communication pipe with plastic pipe

YD/T 4853-2024 - Technical requirements for access network slicing equipment

YD/T 4851-2024 - YANG model for broadband access network slicing based on SDN

YD/T 4850-2024 - Broadband access network controller based on SDN

5 Classification and status

International classification (ICS): 33.040.50

Chinese Standard Classification (CCS): M 42

Prefix YD/T: recommended standard.
