1 Foreword

YD/T 4874-2024 was issued by Ministry of Industry and Information Technology on 5 July 2024 and has been in force since 1 October 2024.

The YD/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 15 pages in English translation.

2 Scope Preview

This standard specifies the technical requirements for vibration tactile feedback of mobile smart terminals, including vibration feedback system architecture, interface, vibration waveform description file and data format, vibration effect playback interface, vibration motor hardware performance technical requirements, and vibration frequency and intensity technical requirements for different game scenarios. This standard is applicable to the design, development and evaluation test of game vibration tactile feedback experience, and other multimedia entertainment vibration feedback applications can also refer to (reference) the content of this standard.

YD/T 4874-2024 falls under ICS 35.020, in the field of information technology.

This catalogue holds 725 other YD/T standards in that field.

In this catalogue, YD/T standards carry edition years from 1982 to 2026.
