## 1 Foreword

YD/T 4918.2-2024 was issued by Ministry of Industry and Information Technology on 5 July 2024 and has been in force since 1 October 2024.

It is one of 4 parts of the YD/T 4918 series.

The YD/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

## 2 Scope Preview

This standard specifies the business process, logical framework and functional requirements of each component of the machine vision system based on edge computing, and specifies the information of the functional logical architecture of machine vision based on edge computing. This standard is applicable to guiding the design and development of machine vision systems based on edge computing in the fields of industrial manufacturing, security, medical care, transportation, etc.

YD/T 4918.2-2024 falls under ICS 35.240.50, in the field of information technology.

This catalogue holds 725 other YD/T standards in that field.

In this catalogue, YD/T standards carry edition years from 1982 to 2026.

## 3 About this standard

Sector: Telecommunication Industry Standard (Recommended)

Issued by: Ministry of Industry and Information Technology

English translation: about 15 pages (approximate)

## 4 Related standards

Other parts of this standard:

YD/T 4918.1-2024 - Machine Vision Based on Edge Computing - Part 1: Application Scenarios and Business Requirements

YD/T 4918.3-2024 - Machine Vision Based on Edge Computing - Part 3: Technical requirements

YD/T 4918.4-2026 - Machine vision based on edge computing - Part 4: Technical Requirements and Testing Methods

Standards on related subjects:

YD/T 2583.18-2019 - Requirement and measurement methods of electromagnetic compatibility for cellular mobile telecommunication equipment - Part 18: 5G user equipment and ancillary equipment

YD/T 2653-2013 - Product standard to demonstrate the compliance of short range devices(SRD) and similar applications related to human exposure to electromagnetic fields (1OHz~30MHz)

GB/T 3873-1983 - General specifications for products packaging of communication equipments

## 5 Classification and status

International classification (ICS): 35.240.50

Chinese Standard Classification (CCS): M 07

Prefix YD/T: recommended standard.
