1 Foreword

YD/T 4929-2024 was issued by Ministry of Industry and Information Technology on 5 July 2024 and has been in force since 1 October 2024.

The YD/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 15 pages in English translation.

2 Scope Preview

This standard specifies the technical requirements for computing platforms based on artificial intelligence general-purpose processors or dedicated processors as core infrastructure, core computing architecture and software application services for multi-agent systems as key capabilities, and multiple service interfaces. This standard is applicable to the design, deployment, service integration, etc. of computing platforms for multi-agent systems, and provides a standard reference framework for the rapid application of mobile Internet for multi-agent systems.

YD/T 4929-2024 falls under ICS 35.020, in the field of information technology.

This catalogue holds 725 other YD/T standards in that field.

In this catalogue, YD/T standards carry edition years from 1982 to 2026.

3 About this standard

Sector: Telecommunication Industry Standard (Recommended)

Issued by: Ministry of Industry and Information Technology

English translation: about 15 pages (approximate)

4 Related standards

Standards on related subjects:

YD/T 3746-2020 - Specification of internet of vehicle information service - User personal information protection

GB/T 28826.2-2020 - Information technology-Common biometric exchange formats framework-Part 2:Procedures for the operation of the biometric registration authority

GB/T 31071-2014 - General science and technology infrastructure-Principles and methods for conformance testing

YD/T 4405.7-2026 - Medical cloud computing assessment method - Part 7: Artificial intelligence applications

YD/T 4925-2024 - Overall technical requirements for medical imaging cloud services based on mobile Internet

YD/T 4921-2024 - Internet-oriented medical artificial intelligence-assisted decision-making algorithm indicators and testing methods for gynecological microecology-based decision-making assistance system

5 Classification and status

International classification (ICS): 35.020

Chinese Standard Classification (CCS): L 70

Prefix YD/T: recommended standard.
