1 Foreword

YD/T 4961.4-2024 was issued by Ministry of Industry and Information Technology on 5 July 2024 and has been in force since 1 October 2024.

It is one of 4 parts of the YD/T 4961 series.

The YD/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

2 Scope Preview

This standard specifies the application requirements for interconnection between heterogeneous privacy computing technology platforms, including basic requirements, component and process management, job and task management, job and task execution, job and task monitoring, job and task evidence storage, and application steps. This standard is applicable to the development, testing, evaluation and acceptance of privacy computing technology platforms with cross-platform interconnection and interoperability task collaboration requirements under the multi-party secure computing or federated learning technology path.

YD/T 4961.4-2024 falls under ICS 35.240, in the field of information technology.

This catalogue holds 725 other YD/T standards in that field.

In this catalogue, YD/T standards carry edition years from 1982 to 2026.
