1 Foreword

YD/T 5259-2023 was issued by Ministry of Industry and Information Technology on 21 April 2023 and has been in force since 1 August 2023.

The YD/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 15 pages in English translation.

2 Scope Preview

This standard applies to the design, construction and acceptance of automatic line protection switching projects for optical cable wavelength division systems. It stipulates the technical requirements for the optical cable wavelength division system line automatic protection switching engineering system format, system design, system performance indicators, equipment selection and configuration, station equipment installation, engineering testing and inspection, and engineering acceptance.

YD/T 5259-2023 falls under ICS 33.040.40, in the field of telecommunications.

This catalogue holds 3,420 other YD/T standards in that field.

In this catalogue, YD/T standards carry edition years from 1982 to 2026.

3 About this standard

Sector: Telecommunication Industry Standard (Recommended)

Issued by: Ministry of Industry and Information Technology

English translation: about 15 pages (approximate)

4 Related standards

Standards on related subjects:

CJ/T 188-2018 - Technical requirements of utility meters data transmission

YDC 079-2009 - Technical Specifications and Testing Methods of Wireless LAN for Mobile Terminals

YD/T 5256-2023 - Wavelength Switched Optical Network (WSON) Engineering Specifications

YD/T 5253-2023 - Design specification for co-construction and sharing project of mobile communication system

YD/T 5252-2023 - Design specification for IP wide area network engineering based on SDN technology

5 Classification and status

International classification (ICS): 33.040.40

Chinese Standard Classification (CCS): L 78

Prefix YD/T: recommended standard.
