1 Foreword

YD/T 5261-2023 was issued by Ministry of Industry and Information Technology on 21 April 2023 and has been in force since 1 August 2023.

The YD/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 15 pages in English translation.

2 Scope Preview

This standard applies to the design, construction and acceptance of reconfigurable optical add-drop multiplexing (ROADM) network projects. It stipulates technical requirements for reconfigurable optical add-drop multiplexing (ROADM) network engineering system format, system design, system performance indicators, equipment selection and configuration, station equipment installation, engineering testing and inspection, and engineering acceptance.

YD/T 5261-2023 falls under ICS 33.040.40, in the field of telecommunications.

This catalogue holds 3,420 other YD/T standards in that field.

In this catalogue, YD/T standards carry edition years from 1982 to 2026.

3 About this standard

Sector: Telecommunication Industry Standard (Recommended)

Issued by: Ministry of Industry and Information Technology

English translation: about 15 pages (approximate)

4 Related standards

Standards on related subjects:

CJ/T 188-2018 - Technical requirements of utility meters data transmission

YDC 079-2009 - Technical Specifications and Testing Methods of Wireless LAN for Mobile Terminals

YD/T 5256-2023 - Wavelength Switched Optical Network (WSON) Engineering Specifications

YD/T 5253-2023 - Design specification for co-construction and sharing project of mobile communication system

YD/T 5252-2023 - Design specification for IP wide area network engineering based on SDN technology

5 Classification and status

International classification (ICS): 33.040.40

Chinese Standard Classification (CCS): L 78

Prefix YD/T: recommended standard.
