1 Foreword

YD/T 5262-2023 was issued by Ministry of Industry and Information Technology on 21 April 2023 and has been in force since 1 August 2023.

The YD/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 15 pages in English translation.

2 Scope Preview

This standard applies to operational signaling monitoring systems built by telecom operators and regulatory signaling monitoring systems built by government regulatory authorities. The main content includes general requirements, system architecture, signaling collection and preprocessing, signaling monitoring platform, Network organization, system performance requirements, equipment configuration requirements, time synchronization, security requirements, project implementation and acceptance requirements, etc.

YD/T 5262-2023 falls under ICS 33.040.40, in the field of telecommunications.

This catalogue holds 3,420 other YD/T standards in that field.

In this catalogue, YD/T standards carry edition years from 1982 to 2026.
