1 Foreword

YD/T 6001-2024 was issued by Ministry of Industry and Information Technology on 24 October 2024 and has been in force since 1 February 2025.

The YD/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 15 pages in English translation.

2 Scope Preview

This standard specifies the method for security assessment of information systems, security products and other objects in a cyberspace security simulation environment based on attack technique and tactics models, including basic concepts, process requirements and judgment criteria. This standard is applicable to guiding the assessment party to carry out security assessment work based on the cyberspace security simulation platform and in accordance with the attack technique and tactics model.

YD/T 6001-2024 falls under ICS 35.240.01, in the field of information technology.

This catalogue holds 725 other YD/T standards in that field.

In this catalogue, YD/T standards carry edition years from 1982 to 2026.

3 About this standard

Sector: Telecommunication Industry Standard (Recommended)

Issued by: Ministry of Industry and Information Technology

English translation: about 15 pages (approximate)

4 Related standards

Standards on related subjects:

GB/T 36073-2018 - Data management capability maturity assessment mode

YD/T 6000-2024 - Technical requirements and testing methods for telecommunication network and Internet data sandbox

YD/T 6006-2024 - Cyberspace Security Simulation - Technical Requirements for Network Behavior Simulation Workflow

YD/T 6005-2024 - Cyberspace Security Simulation - General Requirements for Network Behavior Simulation System

5 Classification and status

International classification (ICS): 35.240.01

Chinese Standard Classification (CCS): L 67

Prefix YD/T: recommended standard.
