1 Foreword

YD/T 6009-2024 was issued by Ministry of Industry and Information Technology on 24 October 2024 and has been in force since 1 February 2025.

The YD/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 15 pages in English translation.

2 Scope Preview

This standard specifies the technical and management requirements and capability framework that organizations should have in the construction of Internet application security capabilities. This standard is applicable to provide guidance for organizations to carry out the construction of security assurance capabilities throughout the life cycle of design, development, testing, operation, maintenance and disposal of Internet applications.

YD/T 6009-2024 carries no ICS number and no Chinese Standard Classification code.
