1 Foreword

YD/T 6022.1-2024 was issued by Ministry of Industry and Information Technology on 24 October 2024 and has been in force since 1 February 2025.

The YD/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 15 pages in English translation.

2 Scope Preview

This standard specifies the overall framework of function orchestration management under the secure access service edge (SASE) framework, including the overview, function requirements, workflow, etc. of standardized SASE function orchestration management. This standard is applicable to stakeholders such as SASE service integrators, security function providers, network function providers, etc., and provides support and reference for the industry and relevant management departments to standardize the SASE industry and technology development.

YD/T 6022.1-2024 falls under ICS 01.040.35, in the field of generalities, terminology and documentation.

This catalogue holds 85 other YD/T standards in that field.

In this catalogue, YD/T standards carry edition years from 1982 to 2026.
