1 Foreword

YD/T 6023-2024 was issued by Ministry of Industry and Information Technology on 24 October 2024 and has been in force since 1 February 2025.

The YD/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 15 pages in English translation.

2 Scope Preview

This standard specifies the overall architecture of security capability scheduling based on SRv6, technical requirements for the orchestration and scheduling layer, technical requirements for network infrastructure, and technical requirements for security infrastructure. This standard is applicable to the development, testing, deployment and operation of integrated products and services based on SRv6 network equipment and cloud-based security resource pools.

YD/T 6023-2024 falls under ICS 35.030, in the field of information technology.

This catalogue holds 725 other YD/T standards in that field.

In this catalogue, YD/T standards carry edition years from 1982 to 2026.
