1 Foreword

YD/T 6030-2024 was issued by Ministry of Industry and Information Technology on 24 October 2024 and has been in force since 1 February 2025.

The YD/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 15 pages in English translation.

2 Scope Preview

This standard specifies the methods and methods for the security classification and classification of the Internet of Things gateway management platform, and specifies the security capability requirements of various gateway management platforms at all levels from the aspects of secure physical environment, secure communication network, secure area boundary, secure computing environment, security management center, and secure operation and maintenance management. This standard applies to the design, development, production, operation and security assessment of various types of Internet of Things gateway management platform systems based on public telecommunications networks.

YD/T 6030-2024 falls under ICS 33.040.50, in the field of telecommunications.

This catalogue holds 3,420 other YD/T standards in that field.

In this catalogue, YD/T standards carry edition years from 1982 to 2026.

3 About this standard

Sector: Telecommunication Industry Standard (Recommended)

Issued by: Ministry of Industry and Information Technology

English translation: about 15 pages (approximate)

4 Related standards

Standards on related subjects:

YD/T 1092-2023 - Telecommunication cables - Foamed polyolefin dielectric, corrugated copper-tube outer conductor, 50 Ohm radio-frequency coaxial cable for wireless communications

YD/T 2165-2010 - Technical specification of modular uninterruptible power systems for telecommunications

YD/T 841-1996 - Underground communication pipe with plastic pipe

YD/T 2019.6-2026 - Test method for broadband customer networking based on public telecommunication network - Part 6: Fiber-To-The-Room (FTTR) residential equipment

YD/T 6031-2024 - Basic IoT Security - Evaluation Method for Security Classification and Classification Management of Gateway Management Platform

YD/T 6040-2024 - Basic IoT Security - Security classification and management evaluation method for broadband customer intelligent gateway based on public telecommunications network

5 Classification and status

International classification (ICS): 33.040.50

Chinese Standard Classification (CCS): M 42

Prefix YD/T: recommended standard.
