1 Foreword

YD/T 6041-2024 was issued by Ministry of Industry and Information Technology on 24 October 2024 and has been in force since 1 February 2025.

The YD/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 15 pages in English translation.

2 Scope Preview

This standard specifies the overall architecture of the core network network slice enhancement technology of the 5G mobile communication network, specifies the core network function requirements and interface requirements for the access control of network slices, and establishes key processes. This standard applies to the research and development and testing of network slice enhancement supported by 5G core networks based on independent networking.

YD/T 6041-2024 falls under ICS 33.060, in the field of telecommunications.

This catalogue holds 3,420 other YD/T standards in that field.

In this catalogue, YD/T standards carry edition years from 1982 to 2026.
