1 Foreword

YD/T 6042-2024 was issued by Ministry of Industry and Information Technology on 24 October 2024 and has been in force since 1 February 2025.

The YD/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 15 pages in English translation.

2 Scope Preview

This standard specifies the technical requirements for mobile edge computing enabling architecture, including the basic concepts, technical requirements, edge computing application enabling architecture (including functional and interface requirements), identification and common values ??of related functions of edge computing application enabling architecture, and processes and messages of edge application enabling architecture. This standard applies to the research and development and testing of related functions in mobile edge computing application enabling architecture.

YD/T 6042-2024 falls under ICS 33.040.01, in the field of telecommunications.

This catalogue holds 3,420 other YD/T standards in that field.

In this catalogue, YD/T standards carry edition years from 1982 to 2026.

3 About this standard

Sector: Telecommunication Industry Standard (Recommended)

Issued by: Ministry of Industry and Information Technology

English translation: about 15 pages (approximate)

4 Related standards

Standards on related subjects:

GB/T 47325-2026 - Security technical requirements and test methods for over-the-air updates in the internet of vehicles

GB/T 47324-2026 - Cybersecurity protection requirements for internet of vehicles platforms

YD/T 1730-2008 - Implementation Guide for Security Risk Assessment of Telecom Network and Internet

YD/T 6038-2024 - Basic IoT Security - Internet of things platform security classification and classification management technical requirements

YD/T 6047-2024 - Computing network operation and management - Overall Technical Requirements

YD/T 6032-2024 - Technical requirements for IPv6 security isolation in home broadband scenarios

5 Classification and status

International classification (ICS): 33.040.01

Chinese Standard Classification (CCS): M 10

Prefix YD/T: recommended standard.
