1 Foreword

YD/T 6107-2024 was issued by Ministry of Industry and Information Technology on 10 December 2024 and has been in force since 1 April 2025.

The YD/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 15 pages in English translation.

2 Scope Preview

This standard specifies the general test methods for user premises equipment (CPE) with 5G wireless access as the upper communication interface connection mode, including the interface, basic equipment functions, safety functions, performance, power supply, environmental adaptability, electrical safety, lightning protection, and electromagnetic compatibility of 5G CPE. This standard applies to the research and development, production and testing of 5G CPE equipment powered by AC and DC power supplies in public telecommunications networks and private communication networks.

YD/T 6107-2024 falls under ICS 33.060.99, in the field of telecommunications.

This catalogue holds 3,420 other YD/T standards in that field.

In this catalogue, YD/T standards carry edition years from 1982 to 2026.

3 About this standard

Sector: Telecommunication Industry Standard (Recommended)

Issued by: Ministry of Industry and Information Technology

English translation: about 15 pages (approximate)

4 Related standards

Standards on related subjects:

YD/T 3711-2020 - Technical requirement of IMS based vehicle eCall system based on public telecommunication network

GB/T 32401-2015 - Technical requirements and measurement methods for VHF/UHF frequency

GB/T 12572-2008 - Universal requirements and measurement methods of parameters for radio transmitting equipment

YD/T 6105-2024 - 5G digital cellular mobile communication network - Technical requirements for TDD repeaters

YD/T 6111-2024 - Technical requirements for multi-frequency fusion passive smart antennas for mobile communications

YD/T 6112-2024 - Technical requirements for wide beam high gain antennas for mobile communications

5 Classification and status

International classification (ICS): 33.060.99

Chinese Standard Classification (CCS): M 36

Prefix YD/T: recommended standard.
