1 Foreword

YD/T 6131-2024 was issued by Ministry of Industry and Information Technology on 10 December 2024 and has been in force since 1 April 2025.

The YD/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 15 pages in English translation.

2 Scope Preview

This standard specifies the general technical requirements for the semanticization of industrial Internet identity data, including the general technical requirements for semantics of data oriented to the industrial Internet, the technical requirements for semantic description, the technical requirements for data dictionary and the requirements for semantic library. This standard applies to the construction, operation and use of the identification data management system of the industrial Internet enterprise node.

YD/T 6131-2024 falls under ICS 35.040, in the field of information technology.

This catalogue holds 725 other YD/T standards in that field.

In this catalogue, YD/T standards carry edition years from 1982 to 2026.
