1 Foreword

YD/T 6145-2024 was issued by Ministry of Industry and Information Technology on 10 December 2024 and has been in force since 1 April 2025.

The YD/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 15 pages in English translation.

2 Scope Preview

This standard specifies the requirements for mobile smart terminals to prevent bad information harassment, including identification capabilities, reminder capabilities, handling capabilities, protection capability classification and user personal information protection requirements. This standard is mainly applicable to the development, design and manufacturing of mobile smart terminals, and makes requirements for mobile smart terminal devices in the factory state. Mobile smart terminal operating systems, mobile smart terminal applications, and related software tool development kits or technical solutions can refer to this standard to develop relevant technical capabilities.
