1 Foreword

YD/T 6146-2024 was issued by Ministry of Industry and Information Technology on 10 December 2024 and has been in force since 1 April 2025.

The YD/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 15 pages in English translation.

2 Scope Preview

This standard specifies the security protection requirements for terminal device identification codes in mobile Internet, including access control, secure storage, reset, and shutdown requirements. This standard applies to the design, development, and evaluation of terminal devices that access the mobile Internet and provide device identification codes to applications, and other terminals can also be used for reference.

YD/T 6146-2024 carries no ICS number and no Chinese Standard Classification code.
