1 Foreword

YD/T 6148-2024 was issued by Ministry of Industry and Information Technology on 10 December 2024 and has been in force since 1 April 2025.

The YD/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 15 pages in English translation.

2 Scope Preview

This standard specifies the technical requirements for the number linkage management of the communication network user rejection call platform, including the scope and conditions of applicable telephone numbers, number entry requirements, risk level classification, number disposal measures, and personal information protection requirements. This standard applies to the builders, users and regulators of the communication network user rejection call platform and the user rejection SMS platform, and provides a technical basis for the design and implementation of their number linkage management functions.

YD/T 6148-2024 falls under ICS 33.030, in the field of telecommunications.

This catalogue holds 3,420 other YD/T standards in that field.

In this catalogue, YD/T standards carry edition years from 1982 to 2026.
