1 Foreword

YD/T 6149-2024 was issued by Ministry of Industry and Information Technology on 10 December 2024 and has been in force since 1 April 2025.

The YD/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 15 pages in English translation.

2 Scope Preview

This standard specifies the visual communication performance requirements for mobile communication terminals based on IP multimedia subsystems (IMS) and develops corresponding test methods. The visual communication performance requirements mainly include video indicators, audio indicators and network damage adaptability requirements for mobile terminals to support videophone and video conferencing services. This standard applies to mobile communication terminals that provide visual communication services based on the IMS network architecture. Mobile terminals that provide visual communication

services based on other network architectures can be used as a reference.

YD/T 6149-2024 carries no ICS number and no Chinese Standard Classification code.

This catalogue holds 6,667 other YD/T standards.

Of the 4,379 YD/T standards that do carry an ICS number, 3,421 (78%) fall under ICS 33, in the field of telecommunications.

3 About this standard

Sector: Telecommunication Industry Standard (Recommended)
