1 Foreword

YD/T 6157-2024 was issued by Ministry of Industry and Information Technology on 10 December 2024 and has been in force since 1 April 2025.

The YD/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 15 pages in English translation.

2 Scope Preview

This standard specifies the technical requirements and test methods for mobile intelligent shooting remote control equipment based on 5G networks, including functional requirements, performance requirements and test methods. This standard applies to broadcast-grade intelligent pan-tilt devices that support mobile intelligent remote shooting based on 5G networks.

YD/T 6157-2024 falls under ICS 33.060.99, in the field of telecommunications.

This catalogue holds 3,420 other YD/T standards in that field.

In this catalogue, YD/T standards carry edition years from 1982 to 2026.

3 About this standard

Sector: Telecommunication Industry Standard (Recommended)

Issued by: Ministry of Industry and Information Technology

English translation: about 15 pages (approximate)

4 Related standards

Standards on related subjects:

YD/T 2576.1-2013 - Test method for user equipment of TD-LTE digital cellular mobile telecommunication network (Phase 1) - Part 1: Basic operation, services and reliability test

YD/T 2576.2-2013 - Test method for user equipment of TD-LTE digital cellular mobile telecommunication network (phase 1) - Part 2: Radio transmission and reception performance test

YD/T 2307-2011 - Technical requirement and testing methods for general function of mobile telecommunication terminal

YD/T 6167-2024 - Technical requirements for mobile applications to support Chinese domain names

YD/T 6151.1-2024 - Technical requirements and test methods for information perception components in mobile smart terminals - Part 1: General requirements

YD/T 6151.2-2024 - Technical requirements and test methods for information perception components in mobile smart terminals - Part 2: Barometer

5 Classification and status

International classification (ICS): 33.060.99

Chinese Standard Classification (CCS): M 37

Prefix YD/T: recommended standard.
