1 Foreword

YD/T 6169-2024 was issued by Ministry of Industry and Information Technology on 10 December 2024 and has been in force since 1 April 2025.

The YD/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 15 pages in English translation.

2 Scope Preview

This standard specifies the basic requirements for the functions and performance of the domain name recursive resolution service management system, as well as the functional requirements, data communication requirements, and data exchange format of the interface between the domain name recursive resolution service management system on the domain name recursive resolution service agency side and the domain name recursive resolution service management system built by the telecommunications management department. This standard applies to the design, development, and construction of the domain name recursive resolution service management system of the domain name recursive resolution service agency and the docking work with the management department system.

YD/T 6169-2024 falls under ICS 33.040, in the field of telecommunications.

This catalogue holds 3,420 other YD/T standards in that field.
