1 Foreword

YD/T 6177-2024 was issued by Ministry of Industry and Information Technology on 10 December 2024 and has been in force since 1 April 2025.

The YD/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 15 pages in English translation.

2 Scope Preview

This standard specifies the technical requirements for deep packet inspection equipment based on the future data network (FDN), including the functional architecture of deep packet inspection technology based on FDN, network element technical requirements, interface requirements, deep packet inspection process, etc. This standard is applicable to the deployment and operation and maintenance of deep packet inspection equipment based on FDN, and guides the research and development of deep packet inspection equipment based on FDN.
