1 Foreword

YD/T 6187-2024 was issued by Ministry of Industry and Information Technology on 10 December 2024 and has been in force since 1 April 2025.

The YD/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 15 pages in English translation.

2 Scope Preview

This standard specifies the general structure of the service bearer network, the deployment of video conferencing services in the bearer network and the organization of media streams, the requirements for quality assurance of the bearer network by the ultra-high-definition video conferencing service, and the network management technical requirements for carrying ultra-high-definition video conferencing services when the public communication network is used as the bearer network for ultra-high-definition video conferencing services. This standard is applicable to the design and construction of bearer networks that support ultra-high-definition video conferencing services, and can also be used as a design and reference for dedicated network-related systems.

YD/T 6187-2024 falls under ICS 33.040.40, in the field of telecommunications.

This catalogue holds 3,420 other YD/T standards in that field.
