1 Foreword

YD/T 6231-2024 was issued by Ministry of Industry and Information Technology on 10 December 2024 and has been in force since 1 April 2025.

The YD/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 15 pages in English translation.

2 Scope Preview

This standard specifies the technical requirements for comprehensive management and control of intelligent operation of data centers, including intelligent resource planning and operation, resource delivery automation, and intelligent monitoring and management of infrastructure and IT. This standard applies to the functional design, product development and test evaluation of intelligent operation of data centers.

YD/T 6231-2024 falls under ICS 33.040.40, in the field of telecommunications.

This catalogue holds 3,420 other YD/T standards in that field.

In this catalogue, YD/T standards carry edition years from 1982 to 2026.
