1 Foreword

YD/T 6237-2024 was issued by Ministry of Industry and Information Technology on 10 December 2024 and has been in force since 1 April 2025.

The YD/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 15 pages in English translation.

2 Scope Preview

This standard specifies the product classification, requirements, test methods, inspection rules, instructions for use, packaging, transportation and storage of tight-buffered optical fibers for communications. This standard applies to the design, development, production and inspection of tight-buffered optical fibers for cable core components in optical cables and tight-buffered optical fibers used alone (such as terminal components).

YD/T 6237-2024 falls under ICS 33.180.10, in the field of telecommunications.

This catalogue holds 3,420 other YD/T standards in that field.

In this catalogue, YD/T standards carry edition years from 1982 to 2026.

3 About this standard

Sector: Telecommunication Industry Standard (Recommended)

Issued by: Ministry of Industry and Information Technology

English translation: about 15 pages (approximate)

4 Related standards

Standards on related subjects:

YD/T 2554.1-2013 - Plastic optical fiber connector - Part 1: Type LC

GB/T 9771.1-2008 - Single-mode optical fibres for telecommunication -- Part 1: Characteristics of a dispersion unshifted single-mode optical fibre

GB/T 18480-2001 - Specification for submarine optical fiber cables

YD/T 6246-2024 - Technical requirements for DHCPv6 options for obtaining DHCPv4 over IPv6 server and relay addresses

YD/T 6236-2024 - Test method for low-power short-distance visible light communication system

YD/T 6235-2024 - Broadband service experience and network performance index test method for home network

5 Classification and status

International classification (ICS): 33.180.10

Chinese Standard Classification (CCS): M 33

Prefix YD/T: recommended standard.
