1 Foreword

YD/T 6258-2024 was issued by Ministry of Industry and Information Technology on 10 December 2024 and has been in force since 1 April 2025.

The YD/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 15 pages in English translation.

2 Scope Preview

This standard specifies the technical requirements for software-defined network (SDN) controllers supporting SRv6, including network basic management, network configuration management, data perception collection, SRv6 path scheduling, intelligent operation and maintenance management, interface requirements, etc. This standard applies to the research and development, design, development and deployment of SDN controllers in SRv6 networks.

YD/T 6258-2024 falls under ICS 33.040.40, in the field of telecommunications.

This catalogue holds 3,420 other YD/T standards in that field.

In this catalogue, YD/T standards carry edition years from 1982 to 2026.

3 About this standard

Sector: Telecommunication Industry Standard (Recommended)

Issued by: Ministry of Industry and Information Technology

English translation: about 15 pages (approximate)

4 Related standards

Standards on related subjects:

CJ/T 188-2018 - Technical requirements of utility meters data transmission

YDC 079-2009 - Technical Specifications and Testing Methods of Wireless LAN for Mobile Terminals

YD/T 6255-2024 - Software-defined wide area network (SD-WAN) multi-cloud interconnection model and technical requirements

YD/T 6253-2024 - Technical requirements for software-defined wide area network (SD-WAN) operation services

YD/T 6252-2024 - Business chain services for cloud-network collaboration - Networking technical requirements and test methods

5 Classification and status

International classification (ICS): 33.040.40

Chinese Standard Classification (CCS): L 78

Prefix YD/T: recommended standard.
