1 Foreword

YD/T 6285-2024 was issued by Ministry of Industry and Information Technology on 10 December 2024 and has been in force since 1 April 2025.

The YD/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 15 pages in English translation.

2 Scope Preview

This standard specifies the data security governance capability maturity requirements that medical and health big data operating units/responsible units/owners should have, including security planning, security management, data life cycle management, basic security and security assurance, and corresponding evaluation methods. This standard applies to third-party institutions to evaluate the data security governance capabilities of relevant units, and provides a reference for medical and health institutions at all levels to select third-party institutions to process medical and health big data.

YD/T 6285-2024 falls under ICS 11.020.10, in the field of health care technology.

This catalogue holds 1 other YD/T standards in that field.

In this catalogue, YD/T standards carry edition years from 1982 to 2026.
