1 Foreword

YD/T 6307-2024 was issued by Ministry of Industry and Information Technology on 10 December 2024 and has been in force since 1 April 2025.

The YD/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 15 pages in English translation.

2 Scope Preview

This standard specifies the security assurance requirements for core network network functions (second phase) in 5G mobile communication networks, including the security assurance objectives, requirements, test content and test methods for the newly added core network network functions in the second phase and the newly added security requirements of existing network elements. This standard applies to the security testing of 5G core network network functions.

YD/T 6307-2024 falls under ICS 33.060.99, in the field of telecommunications.

This catalogue holds 3,420 other YD/T standards in that field.

In this catalogue, YD/T standards carry edition years from 1982 to 2026.
