1 Foreword

YD/T 6446-2025 was issued by Ministry of Industry and Information Technology on 2 July 2025 and has been in force since 1 November 2025.

The YD/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 15 pages in English translation.

2 Scope Preview

This standard specifies the technical requirements for the user plane BeiDou independent positioning service platform based on 5G mobile communication networks, including the platform's network architecture, protocol architecture, functional requirements, message flow, interface requirements, and related test methods. This standard applies to the design, development, and testing of the user plane BeiDou independent positioning service platform based on 5G mobile communication networks.

YD/T 6446-2025 falls under ICS 33.030, in the field of telecommunications.

This catalogue holds 3,420 other YD/T standards in that field.

In this catalogue, YD/T standards carry edition years from 1982 to 2026.

3 About this standard

Sector: Telecommunication Industry Standard (Recommended)

Issued by: Ministry of Industry and Information Technology

English translation: about 15 pages (approximate)

4 Related standards

Standards on related subjects:

YD/T 3909-2021 - Vehicle emergency call system based on public telecommunication network - Requirements and architecture

YD/T 3910-2021 - Vehicle emergency call system based on public telecommunication network - Technical requirements and test method of the vehicle emergency rescue platform

YD/T 1761-2012 - Technical requirements for web accessibility

YD/T 6452-2025 - Metrics and methods of public application-oriented quality evaluation for mobile internet - Mobile gaming

YD/T 6451-2025 - Metrics and methods of industry application-oriented quality evaluation for mobile internet - Location and Timing Service

YD/T 6445-2025 - Technical specifications for Quantum Random Number Generator (QRNG)

5 Classification and status

International classification (ICS): 33.030

Chinese Standard Classification (CCS): M 21

Prefix YD/T: recommended standard.
