1 Foreword

YD/T 6507.2-2025 was issued by Ministry of Industry and Information Technology on 17 December 2025 and has been in force since 1 April 2026.

It is one of 4 parts of the YD/T 6507 series.

The YD/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

2 Scope Preview

This standard specifies the technical requirements for data transmission of location information on emergency location service platforms, including the data transmission process, field requirements, and interface specifications. This standard applies to the design and development of terminal emergency location service reporting systems, emergency location service platforms, and emergency response and rescue agency information systems within emergency location services.

YD/T 6507.2-2025 falls under ICS 33.030, in the field of telecommunications.

This catalogue holds 3,420 other YD/T standards in that field.

In this catalogue, YD/T standards carry edition years from 1982 to 2026.
