1 Foreword

YD/T 6519-2025 was issued by Ministry of Industry and Information Technology on 19 August 2025 and has been in force since 1 December 2025.

The YD/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 15 pages in English translation.

2 Scope Preview

This standard specifies the requirements for enterprise IT... After system cloudification, the cloud governance capabilities required during the continuous cloud usage phase include six aspects: architecture governance, resource provisioning and orchestration, resource classification management, identity and access control, monitoring and logging, and cost management and optimization. This document also includes an enterprise cloud governance capability maturity model and cloud governance capability level grading requirements. This document is applicable to cloud service users assessing their own cloud resource usage risk management and control capabilities, and also serves as a reference for cloud service providers to build and improve their cloud service governance products and technologies.

YD/T 6519-2025 falls under ICS 35.240, in the field of information technology.

This catalogue holds 725 other YD/T standards in that field.

In this catalogue, YD/T standards carry edition years from 1982 to 2026.

3 About this standard

Sector: Telecommunication Industry Standard (Recommended)

Issued by: Ministry of Industry and Information Technology

English translation: about 15 pages (approximate)

4 Related standards

Standards on related subjects:

GB/T 36073-2018 - Data management capability maturity assessment mode

YD/T 6522-2025 - Evaluation specification for application Scenario-oriented Natural Language - Processing Model

YD/T 6521-2025 - Framework for audio structuralizing based on deep neural network

YD/T 6520.5-2025 - Large scale pre-training model technology and application evaluation method - Part 5: Model operation

5 Classification and status

International classification (ICS): 35.240

Chinese Standard Classification (CCS): L 67

Prefix YD/T: recommended standard.
