1 Foreword

YD/T 6520.3-2025 was issued by Ministry of Industry and Information Technology on 19 August 2025 and has been in force since 1 December 2025.

It is one of 5 parts of the YD/T 6520 series.

The YD/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

2 Scope Preview

This standard specifies the indicator requirements and evaluation methods for large-scale pre-trained models in the application phase, mainly including three dimensions: application richness, application flexibility, and application maturity. This document is applicable to guiding large-scale models... Technology providers conducting product development can offer references for large-scale model application providers in product evaluation, system construction, and application management.

YD/T 6520.3-2025 falls under ICS 35.020, in the field of information technology.

This catalogue holds 725 other YD/T standards in that field.

In this catalogue, YD/T standards carry edition years from 1982 to 2026.
