1 Foreword

YD/T 6520.5-2025 was issued by Ministry of Industry and Information Technology on 19 August 2025 and has been in force since 1 December 2025.

It is one of 5 parts of the YD/T 6520 series.

The YD/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

2 Scope Preview

This standard specifies the capability requirements for platform tools during the engineering implementation and operation phases of large-scale model pre-training models, mainly including data engineering, model optimization, model delivery, service operation, and platform capabilities. This document is intended to guide product providers in improving the capabilities of large-scale model platform products and to provide technology selection references for application providers.

YD/T 6520.5-2025 falls under ICS 35.240, in the field of information technology.

This catalogue holds 725 other YD/T standards in that field.

In this catalogue, YD/T standards carry edition years from 1982 to 2026.

3 About this standard

Sector: Telecommunication Industry Standard (Recommended)

Issued by: Ministry of Industry and Information Technology

English translation: about 15 pages (approximate)

4 Related standards

Other parts of this standard:

YD/T 6520.1-2025 - Large-scale pre-trained model technology and application evaluation method - Part 1: Model development

YD/T 6520.2-2025 - Large-scale pre-trained model technology and application evaluation method - Part 2: Model capability

YD/T 6520.3-2025 - Part 3: Model application

YD/T 6520.4-2025 - Part 4: Trustworthy requirements

Standards on related subjects:

GB/T 36073-2018 - Data management capability maturity assessment mode

5 Classification and status

International classification (ICS): 35.240

Chinese Standard Classification (CCS): L 67

Prefix YD/T: recommended standard.
