1 Foreword

YD/T 6526-2025 was issued by Ministry of Industry and Information Technology on 19 August 2025 and has been in force since 1 December 2025.

The YD/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 15 pages in English translation.

2 Scope Preview

This standard specifies the basic framework, functional indicators, and related tool and technical indicators of intelligent decision-making systems, mainly including five dimensions: strategy development, test release, operation management, analysis and evaluation, and underlying support. This document applies to guiding intelligent decision-making system technology providers in product development. This document provides a reference for product selection, system construction, and application management in intelligent decision-making system applications.

YD/T 6526-2025 falls under ICS 35.240, in the field of information technology.

This catalogue holds 725 other YD/T standards in that field.

In this catalogue, YD/T standards carry edition years from 1982 to 2026.

3 About this standard

Sector: Telecommunication Industry Standard (Recommended)

Issued by: Ministry of Industry and Information Technology

English translation: about 15 pages (approximate)

4 Related standards

Standards on related subjects:

GB/T 36073-2018 - Data management capability maturity assessment mode

YD/T 6521-2025 - Framework for audio structuralizing based on deep neural network

YD/T 6520.5-2025 - Large scale pre-training model technology and application evaluation method - Part 5: Model operation

YD/T 6519-2025 - Enterprise cloud governance capability maturity grading requirements

5 Classification and status

International classification (ICS): 35.240

Chinese Standard Classification (CCS): L 67

Prefix YD/T: recommended standard.
