1 Foreword

YD/T 6527-2025 was issued by Ministry of Industry and Information Technology on 19 August 2025 and has been in force since 1 December 2025.

The YD/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 15 pages in English translation.

2 Scope Preview

This standard specifies the framework and functional requirements of intelligent risk control platforms, mainly including core contents such as functional completeness, process coverage, AI support, scenario richness, and system maturity. This document is applicable to guiding intelligent risk control platform technology providers in product development and can provide a reference for application users in product selection and system construction.

YD/T 6527-2025 falls under ICS 35.240, in the field of information technology.

This catalogue holds 725 other YD/T standards in that field.

In this catalogue, YD/T standards carry edition years from 1982 to 2026.

3 About this standard

Sector: Telecommunication Industry Standard (Recommended)

Issued by: Ministry of Industry and Information Technology

English translation: about 15 pages (approximate)

4 Related standards

Standards on related subjects:

GB/T 36073-2018 - Data management capability maturity assessment mode

YD/T 6521-2025 - Framework for audio structuralizing based on deep neural network

YD/T 6520.5-2025 - Large scale pre-training model technology and application evaluation method - Part 5: Model operation

YD/T 6519-2025 - Enterprise cloud governance capability maturity grading requirements

5 Classification and status

International classification (ICS): 35.240

Chinese Standard Classification (CCS): L 67

Prefix YD/T: recommended standard.
