1 Foreword

YD/T 6531-2025 was issued by Ministry of Industry and Information Technology on 19 August 2025 and has been in force since 1 December 2025.

The YD/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 15 pages in English translation.

2 Scope Preview

This standard specifies the requirements for the ability of facial recognition systems to protect facial information, including the protection capabilities of facial recognition systems in all stages of facial information processing (collection, storage, use, transmission, deletion), facial information security management capabilities, and the ability to protect the rights of facial information subjects. This document is applicable to facial recognition system providers conducting facial recognition-related business.

YD/T 6531-2025 falls under ICS 35.240, in the field of information technology.

This catalogue holds 725 other YD/T standards in that field.

In this catalogue, YD/T standards carry edition years from 1982 to 2026.

3 About this standard

Sector: Telecommunication Industry Standard (Recommended)

Issued by: Ministry of Industry and Information Technology

English translation: about 15 pages (approximate)

4 Related standards

Standards on related subjects:

GB/T 36073-2018 - Data management capability maturity assessment mode

YD/T 6525-2025 - Intelligent dialogue platform development and service capability evaluation method

YD/T 6522-2025 - Evaluation specification for application Scenario-oriented Natural Language - Processing Model

YD/T 6521-2025 - Framework for audio structuralizing based on deep neural network

5 Classification and status

International classification (ICS): 35.240

Chinese Standard Classification (CCS): L 67

Prefix YD/T: recommended standard.
