1 Foreword

YD/T 6582-2025 was issued by Ministry of Industry and Information Technology on 17 December 2025 and has been in force since 1 April 2026.

The YD/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 15 pages in English translation.

2 Scope Preview

This standard specifies the data reporting interface between basic telecommunications enterprises and the telecommunications business supervision platform, including technical requirements such as system architecture, overall interface requirements, data push requirements, interface process, interface message requirements, timers, encryption requirements, and security management requirements. It also describes the testing methods for the data reporting interface. This standard applies to 5G service providers reporting information to the supervision platform.

YD/T 6582-2025 falls under ICS 33.030, in the field of telecommunications.

This catalogue holds 3,420 other YD/T standards in that field.

In this catalogue, YD/T standards carry edition years from 1982 to 2026.
