1 Foreword

YD/T 6601-2025 was issued by Ministry of Industry and Information Technology on 17 December 2025 and has been in force since 1 April 2026.

The YD/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 15 pages in English translation.

2 Scope Preview

This standard specifies the technical requirements for evidence storage and retrieval services for user-authorized enterprises conducting voice or messaging communications (hereinafter referred to as user-authorized communications), including system architecture, functional requirements, service processes, and security requirements. This standard applies to the research, development, and construction of user-authorized communication platforms.

YD/T 6601-2025 falls under ICS 33.030, in the field of telecommunications.

This catalogue holds 3,420 other YD/T standards in that field.

In this catalogue, YD/T standards carry edition years from 1982 to 2026.
