1 Foreword

YD/T 6603-2025 was issued by Ministry of Industry and Information Technology on 17 December 2025 and has been in force since 1 April 2026.

The YD/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 15 pages in English translation.

2 Scope Preview

This standard specifies the technical requirements for local routing trust anchors between Internet exchange center operators, including the architecture and deployment requirements of local routing trust anchors in Internet exchange centers, data management requirements, and interoperability specifications. This standard is applicable to Internet exchange center operators.
