### Foreword

YD/T 6671-2026 is a recommended industry standard of the People's Republic of China in the Telecom sector, approved and issued by the Ministry of Industry and Information Technology on 11 March 2026, with effect from 1 June 2026.

It is administered by the China Communications Standards Association.

Classification: ICS 33.040.50; CCS M42.

### 1 Scope

YD/T 6671-2026 specifies an evaluation index system for broadband service experience and network performance in industrial manufacturing enterprises. It covers the indicators of broadband service experience and network performance inside such enterprises, the scoring method, and the methods of grading and classification.

The document applies to evaluating the broadband service experience and network performance of industrial manufacturing enterprises. It is used by manufacturing enterprises, telecommunication operators, network and system integrators, and evaluation bodies. It is a voluntary standard, as shown by the /T in its code. It was approved by the Ministry of Industry and Information Technology under the China Communications Standards Association, issued on 11 March 2026 and takes effect on 1 June 2026. It is a new standard.
